

TECHNOLOGY E&O

Part of our Professional Lines Series

Businesses rely on technology to function and maximize profits. Technology professionals are relied upon to keep the businesses of their clients moving, and inadvertent errors can result in a real economic loss for those customers; losses the customers will seek to recover.

Our Technology Errors and Omissions Custom Turnkey Solution allows you to protect your small business insureds from devastating losses from their professional liability exposure. With a collaborative approach from form design to training and education, we're pleased to partner on a ground-up quota share basis.

Eligibility includes over 35 classes

Coverage for wrongful acts and network security failures

Flat charge pricing based on revenue bands

Prior acts available using embedded Retroactive Date

CLAIMS EXAMPLES

A web hosting contractor has a system failure resulting in a denial of service for clients. Clients claim lost revenue.

**Tech E&O responds because the loss is economic and not caused by physical damage or bodily injury.*

A payroll software application fails resulting in additional costs including overtime, hiring outside assistance and potentially fines.

**Tech E&O responds because the loss is economic and not caused by physical damage or bodily injury.*

TECH E&O STRENGTHS

- Broad eligibility for risks within virtually all types of technology-related services
- Wrongful acts based, including network security failures
- Comprehensive definition of professional services
- Simplified application and quotation process

COMPLETE PACKAGE

- Rates, forms, manuals and guidelines
- Filing support including assistance with answering state objections
- Claims training and consultation
- Marketing support and underwriting training

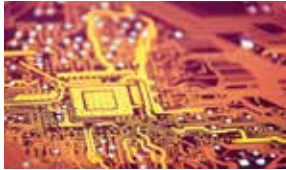

Not all products and services are available in every jurisdiction, and the precise coverage afforded is subject to the actual terms and conditions of the contract of reinsurance as issued.
