

MISCELLANEOUS PROFESSIONAL LIABILITY

Part of our Professional Lines Series

Nearly every service business has a liability exposure and they face rising litigation alleging negligence, fraud and personal injury. And while many claims are groundless, litigation costs are substantial, continue to escalate and may put a smaller insured out of business.

Our Miscellaneous Professional Liability Custom Turnkey Solution allows you to easily attach MPL coverage to a BOP, CPP, CGL or WC policy in a cost and efficient manner. Primary, ground-up quota share options are available.

Eligibility includes over 325 classes

Pricing based on revenue or flat charges

Scheduled retro date not necessary to include prior acts coverage

Occurrence trigger available for certain classes

CLAIMS EXAMPLES

A marketing consultant is hired to help a firm increase sales. The consultant recommends that they hire more sales people but the business loses market share and has to terminate the new sales people. They sue the consultant for bad advice that resulted in higher costs and lower sales

**MPL responds because the loss is economic and alleges an error in providing advice. The loss is not caused by physical damage or bodily injury (GL).*

A travel agent books a group tour for 125 people. The tour company goes bankrupt before the trip but after final payments have been made. The group sues for their loss of deposits and loss of income from anticipated membership increases.

**MPL responds because the loss is economic and alleges a failure to provide service and an error in advice. The loss is not caused by physical damage or bodily injury (GL).*
